Lipocine Announces Financial and Operational Results for the Second Quarter of 2016

SALT LAKE CITY, Aug. 09, 2016 (GLOBE NEWSWIRE) --<u>Lipocine Inc.</u> (NASDAQ:LPCN), a specialty pharmaceutical company, today announced financial and operational results for the guarter ended June 30, 2016.

Quarterly and Recent Highlights

- Received a Complete Response Letter ("CRL") from the United States Food and Drug Administration ("FDA") regarding its
 New Drug Application ("NDA") for LPCN 1021, an oral testosterone product candidate for testosterone replacement
 therapy ("TRT") in adult males for conditions associated with a deficiency or absence of endogenous testosterone, also
 known as hypogonadism. The next step will be to request a meeting with the FDA to understand more fully the issues
 raised in the CRL and to agree on a path forward to achieve approval of LPCN 1021.
- Added to the Russell 3000® and Russell Global® Indexes.
- Presented clinical data for LPCN 1021 at the 2016 American Urological Association Annual Meeting.

"Our focus remains on evaluating the content of the CRL, including the FDA recommended actions, to bring our NDA for LPCN 1021 into a position for approval. We remain committed to bringing LPCN 1021 to patients who will benefit from its intended use," said Dr. Mahesh Patel, Chairman, President and CEO of Lipocine. "In addition, we continue to advance the progress of our other pipeline products, LPCN 1107 and LPCN 1111, with updates expected in the coming months."

Second Quarter 2016 Financial Results

Lipocine reported a net loss of \$5.8 million, or \$0.32 per diluted share, for the second quarter of 2016, compared with a net loss of \$4.2 million, or \$0.26 per diluted share, for the second quarter of 2015.

For the second quarter of 2016, research and development expenses were \$2.6 million, compared with \$3.2 million for the second quarter of 2015. The decrease was primarily due to decreased contract research organization and consultant costs, partially offset by increased pre-commercialization manufacturing expenses related to LPCN 1021.

For the second quarter of 2016, general and administrative expenses were \$3.2 million, compared with \$1.1 million for the second quarter of 2015. The increase was primarily due to increased costs related to business development, market research and pre-commercialization activities related to LPCN 1021 as well as increased personnel costs.

As of June 30, 2016, Lipocine had cash, cash equivalents and marketable investment securities of \$32.9 million, compared with cash and cash equivalents of \$44.8 million as of December 31, 2015.
